Interest Rate Policy

Fedex Finance Private Limited, a non-deposit taking non-systemically important Non-Banking Financial Company (NBFC) licensed by the Reserve Bank of India (RBI) bearing registration No. 13.00930.

PREAMBLE

The Reserve Bank of India ("RBI") has issued the Master Circular – Fair Practices Code dated July 1, 2015 bearing reference number DNBS (PD) CC.No.054/03.10.119/2015-16 ("Master Circular"), which details guidelines on fair practices code to be adopted by all non-banking financial companies ("NBFCs") while doing lending business, which also includes provisions in relation to charging of interest rates by NBFCs.

The Master Circular requires all NBFCs to lay out appropriate internal principles and procedures in determining interest rates and processing and other charges (with the approval of the board of directors of the NBFC), which contains the guidelines outlined in the Master Circular and the Master Direction.

Accordingly, Fedex Finance Private Limited (the "Company") has put in place this interest rate policy ("Interest Rate Policy") to be followed by the Company in determining interest rates and processing and other charges in relation to its lending business.

ESTABLISHING AN INTEREST RATE

The rate of interest to be charged for loans and advances will be in the range of 8% to 15% p.a.

The rate of interest shall be arrived at after taking into account relevant factors, such as cost of funds, margin and risk premium, including the following;

- Tenor of the Loan: The rate of interest charged will depend on the term of the loan;
- Internal and External Costs of Funds - The rate of interest charged will also be determined depending on the rate at which funds necessary to provide loan facilities to customers are sourced by the Company, normally referred to as internal cost of funds. From an external cost of funds perspective, the benchmark interest rate that may be used by the Company could be the Marginal Cost of Lending Rate of the leading Scheduled Commercial Bank.
- Internal Cost Loading - The interest rate charged will also take into account costs of doing business. Factors such as the complexity of the transaction, the size of the transaction and other factors that affect the costs associated with a particular transaction will also be taken into account before arriving at the final rate of interest quoted to a customer.
- Fixed Rate - The applicable rate of interest would be fixed (including IRR based lending).
- Periodicity of interest - Interest will be charged for the period as stipulated in the loan agreement, subject to any modifications thereto as may be agreed by and between the Company and the customer, in writing.

The loan agreement/offer letter shall expressly stipulate the penal charges chargeable for late payment / repayment of dues by the borrower. The apportionment of the equated monthly installments ("EMI") amount towards the principal and interest will also be communicated by the Company to the customer/borrower by way of the repayment schedule, wherever applicable.
- **Annualised Rates** - The rate of interest shall be annualised rates so that the borrower is aware of the exact rates that would be charged to the account.
